

# ELECTROPHORESIS MANUAL SYSTEM

## PICOPHOR

# ELECTROPHORESIS MANUAL SYSTEM

The system consists of:

Electrophoretic Power Supply

Electrophoretic Chamber

Multiple Work Support with Application Plate

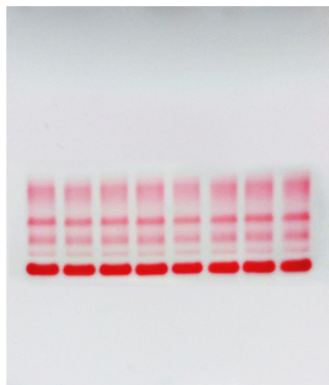

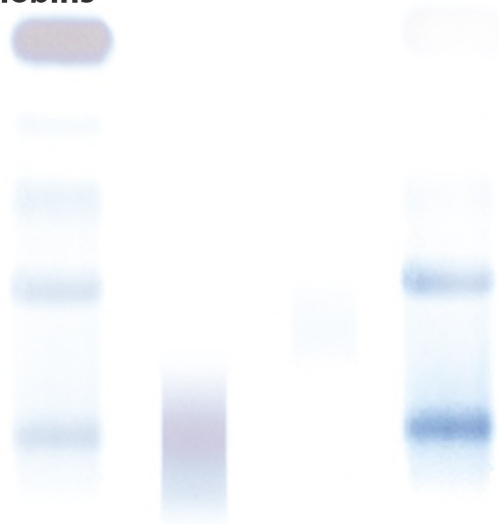

Samples plate at 40 positions for Serum Proteins and Hemoglobins

Applicator for Serum proteins and Hemoglobins

Applicator for Immunofixation

Samples plate at 5 positions for Immunofixation

# PICOPHOR

## Electrophoretic Power Supply

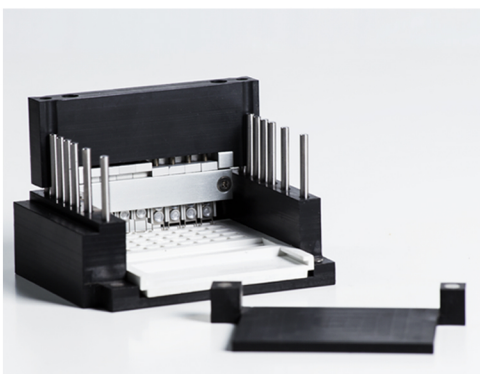

PicoPhor electrophoretic power supply unit can be programmed both in Voltage and in Current thanks to its multifunction selector, its display and its easy-to-use menu system.

## Immunofixation

picoPhor offers all the simplicity and speed possible in preparing samples of proteins Immunofixation.

## Best paired with microPhor densitometer

Complete your system with our microPhor densitometer for reading the results of Serum Proteins and Hemoglobins electrophoresis
